**Business Summary and Development**

The Company owns a 70% equity interest in a company which is developing and operating the the Sawayaerdun Gold Project (the “Gold Project”) in Xinjiang. After delaying the development plan of the Gold Project in 2015, the Company has been concentrating in undertaking the process for conversion of the exploration licence into a mining licence. As at 30 June 2016, the Company submitted and was awaiting the approval of the first of the three required Chinese standard geological reports. If the process goes well, a mining licence would be obtained by the end of 2017. In addition, GobiMin continues to seek potential investors to develop the Gold Project.

As at June 30, 2016, GobiMin held an equity interest of 38.30% in Loco Hong Kong Holdings Limited (“Loco HK”), which together with its subsidiaries (“Loco HK Group”), are engaged in the processing and trading of metals and commodity forward contracts. Loco HK Group’s income was mainly generated from the sales of metals, including silver, tin and gold. During the period under review, benefit from resumption of gold and tin trading and increase in silver processing activities, Loco HK Group achieved a significant increase of 101% in turnover for the six months ended 30 June 2016 as compared with the corresponding period last year. Loco HK recorded a net profit of approximately \$0.5 million for the three months ended June 30, 2016, with GobiMin’s

share amounting to approximately \$0.2 million. On August 23, 2016, GobiMin realized part of its investment in Loco HK by disposal of 113,000,000 shares of Loco HK to third parties (the “Transaction”) for gross proceeds of approximately \$10.62 million which will be received on August 26, 2016. After the Transaction, GobiMin remains having a 10% equity interest in Loco HK. In view of the market price of Loco HK shares and the economic conditions, the Group believed that it was a good timing and value for GobiMin to realise part of its investment in Loco HK. GobiMin can increase the flexibility to invest in more potential assets or projects in future and strengthen its financial resources.

In addition, GobiMin owns 40% equity interest each in three companies incorporated in China to engage in base metals and precious metal exploration, including nickel, copper, and gold, in Xinjiang, and a 2.66% equity interest in the Yanxi Copper Property.

### **Liquidity and Capital Resources**

As at June 30, 2016, the working capital of the Group amounted to approximately \$20.3 million (December 31, 2015: \$23.1 million), by netting off its current assets of \$23.0 million (December 31, 2015: \$26.2 million) with current liabilities of \$2.7 million (December 31, 2015: \$3.1 million).

Taking into account of its financial position, the management of the Group considered that its cash and cash equivalents will be more than sufficient to finance its operation, including the contractual commitments of the Gold Project of approximately \$1.8 million.
